

SuperSHELL Homes Presents:

# SuperSCAB™ SuperSTUD Retro Kit

*Doubles or Triples Current Insulation Capacity of your Home*

SuperSHELL building products is proud to introduce the SuperSCAB, Now you can Remodel your home from the inside out to bring the Shell performance of your dated home to the levels of Next Generation Housing. Using the SuperSCAB on your 2x4 or 2x6 exterior walls will give the performance of the SuperSTUD S-9 or S-11 allowing the addition of up to R-22 in your walls with a 3 inch thermal break!

- *Your wall system will now offer 40-60% less heat-loss over the lifetime of your home*
- *Quieter home by muffling street noise*
- *Reduces cold spots in your home*
- *Reduces mould growth*
- *Increased fire protection towards structural damages*
- *Reduces heat-loss at ceiling level, thus reducing ice-damming and pre-mature shingle degradation*
- *Easy to install into existing structural wall system, basement, ceiling, garage, etc...*
- *Reduction of monthly heating costs*
- *Your existing walls can meet 2020 energy targets*

Existing Wall Structure
